NSX Market Wrap
N\$87.4m traded on the NSX yesterday with N\$32m worth of Nedbank Group and N\$21.3m worth of Shoprite Holdings exchanging hands. On the local bourse N\$14,098 worth of SBN Holdings traded up 2c and N\$9,650 worth of Mobile Telecommunications Limited traded at market. No ETF/ETN trades were recorded.

JSE Market Wrap
The FTSE/JSE Africa All Share Index fell 0.7% to 107,763.10 as 28 stocks gained, 89 fell, and 2 were unchanged. SPAR Group Ltd rose 4.5%, Pan African Resources gained 2.7% and Altron climbed 2.3%. Grindrod fell 5.5%, PPC Ltd dropped 5.3% and Premier Group declined 4.5%.

International Market Wrap
A rebound in Treasuries brought relief to Wall Street, spurring gains in stocks and overshadowing concerns about inflationary pressures stemming from elevated energy costs. The respite in the bond selloff sent 10-year yields down from the highest since 2002. The S&P 500 erased a drop that had been fuelled by factory data showing a surge in a gauge of raw-material prices. Oil climbed amid ongoing geopolitical risks. The Pentagon may soon deploy an additional aircraft carrier and 10,000 troops to the Middle East, according to a US official. An unwinding of crowded positions helped fuel the bounce in Treasuries, which also rose as France's fiscal woes boosted haven demand.

International News

SA ABSA Manufacturing PMI rose by 4.9 points to 50.7 in September, above market, as per the Bureau for Economic Research.

US Initial Jobless Claims fell by 1,000 to 197,000 in the week of 26 September, below market, as per the Department of Labour.

US S&P Global Manufacturing PMI fell 1.1 points to 55.9 in September, below market, as per S&P Global.

Local News

TotalEnergies secures three-month Namibia bulk fuel contract. Namibia has awarded TotalEnergies the contract to supply about 345.3 million litres of petrol and diesel between November 2026 and January 2027, in a deal expected to save the country approximately N\$220.5 million compared with the current supply arrangement. Minister of Industries, Mines and Energy Modestus Amutse announced on Monday that the TotalEnergies bidding group had emerged as the successful bidder following an open competitive bidding process, with its trading company, TOTSA, designated as the supplying member. Under the three-month arrangement, TotalEnergies will supply approximately 246.9 million litres of diesel and 98.4 million litres of petrol, with the first shipment expected to arrive in November. – Mining & Energy

Wia weighs 33% processing capacity increase at Kokoseb to 7Mtpa. Wia Gold Limited is considering a 33% increase in processing capacity at its Kokoseb gold project in Namibia, from 5.25 million tonnes per annum (Mtpa) to about 7Mtpa, after an engineering review found the existing mine schedule could potentially support the higher throughput. The review, undertaken by SENET, a DRA Global Group company, assessed what modifications would be required to preserve the option of expanding the processing plant beyond the capacity outlined in Kokoseb's Definitive Feasibility Study (DFS). Wia said a preliminary assessment found that the current mining schedule could potentially support a 7Mtpa processing plant without changes to planned mining activities, partly due to surplus ore and significant medium-grade stockpiles generated over the life of the mine. – Mining & Energy

Paratus mobile push lifts revenue but weighs on profit. Paratus Namibia Holdings' expansion into mobile telecommunications helped lift group revenue by 24% to about N\$688 million in the year ended 30 June 2026, but the cost of building the new business continued to weigh on profitability. The telecommunications group generated about N\$94 million from its mobile operations during the year, establishing the business as a new source of income alongside its established fibre, connectivity and data services. Of the mobile revenue, N\$49.8 million came from recurring services recognised over time, while N\$44.2 million was generated from non-recurring revenue recognised at a point in time. This means mobile accounted for nearly 14% of Paratus' total revenue during its first full year of contribution, showing the growing importance of the company's push into a market traditionally dominated by MTC and Telecom Namibia. – The Brief

Namibia banking sector grows 10% as deposits reach N\$174bn. Namibia's banking sector recorded 10% growth in real value added in the second quarter of 2026, reversing a 4.1% contraction recorded during the corresponding period last year, as deposits increased to N\$174 billion. According to the Namibia Statistics Agency's (NSA) second-quarter GDP report, total banking deposits increased from N\$156 billion in the second quarter of 2025 to N\$174 billion, an increase of about N\$18 billion. "The banking subsector recorded a growth of 10.0% in real value added during the second quarter of 2026, in comparison to 4.1% decline recorded in the same period as 2025," the NSA said. – The Brief

SA Economic News

South Africa finalizing details of key credit guarantee vehicle. South Africa's National Treasury said it aims to produce a binding term sheet for a US\$500 million credit guarantee vehicle by the end of the first quarter next year, to support infrastructure investment and bring the private sector into the national electricity transmission network. Plans a second round of consultations with seven pre-qualified bidders to participate in the Independent Transmissions Projects program, who will receive a second draft request for proposals package by the end of 2026, accompanied by a draft term sheet for the CGV.

Company News

Discovery Vitality launches weight loss coaching for monthly fee as GLP-1 use triples. Discovery Vitality is launching a HealthyWeight programme to support people who may be on GLP-1 weight-loss medicines, offering for nutrition, lifestyle and behaviour change advice arguing that sustainable weight loss requires more than medicine alone. The programme, starting at R295 a month, does not help pay for the weight-loss medicines, but is designed to support users to keep weight off for longer. Discovery has noted that the number of members using these medicines, such as Ozempic and Mounjaro, has increased threefold since 2022. But it notes real-world evidence and its own data suggests many patients discontinue treatment within a year. Research further shows that around two-thirds of the weight lost may be regained within a year of discontinuing treatment. – Moneyweb

MAS shifts investment focus beyond Europe as annual earnings tumble. MAS is taking a turn away from its traditional Central and Eastern European property base, using asset disposals to free up capital as it transforms into a broader investment platform. The group, which owns income-producing properties in Romania, Poland and Bulgaria and has development exposure through its joint venture with Prime Kapital, said its investment decisions would no longer be dictated by geography or asset class. Instead, it will focus on opportunities that offer asset quality, durability, downside protection and long-term value creation. "The board believes patience and selectivity are important to achieving superior long-term outcomes," MAS said in a statement accompanying its financial statements for the year to end-June, signalling that it would rather leave capital unemployed than reinvest simply to protect short-term earnings. – Business Day

PHP rental growth stays ahead of guidance. Primary Health Properties continues to deliver rental growth slightly ahead of its guidance, it said on Thursday. In an update for the third quarter to end-September, the group, which is a major investor in critical healthcare infrastructure in the UK and Ireland, said it was encouraged by recent investment transactions in its sector at supportive valuations. It said it continues to see an improving rental growth outlook, especially from rent reviews, with an extra £5.8m of income generated in the first nine months of the year. This represents a total increase of 6.1% over the previous rent of £96m, equivalent to 3.1% on an annualised basis. – Business Day

SADC News

Zambia's central bank cut interest rates by the biggest margin since at least 2012 as inflation is forecast to remain within its target range. The monetary policy committee lowered the benchmark interest rate to 10.75% from 13.25%, Governor Denny Kalyalya told reporters in the capital, Lusaka, on Wednesday. That was the fourth successive rate cut.

Government Bond Auctions

Next Auction Date: 07 October 2026

Commentary on Previous Auction:

This morning's switch auction saw the central bank receive bids totalling N\$672.1m for the GC27 source bond and opted to switch N\$483.9m of those. Consequently, the outstanding amount on the GC27 now stands at N\$3.09bn. Demand was heavily concentrated towards the front end of the curve. The GC29, GC34 and GC37 attracted N\$512.6m between them, just over three-quarters of all bids received. The GC40 and GC43 were allocated in full, while demand thinned out further along the curve, with only N\$4.0m of the N\$16.8m bid on the GC50 accepted. No allocations were made for the GC53.
