Fuel prices to rise by N$2.00 a litre as government restores levies. Fuel prices in Namibia will increase by N$2.00 per litre from 5 August 2026 after the government reinstated fuel levies that had been temporarily reduced, with higher international oil prices adding further pressure on pump prices. Announcing the August fuel price adjustment, Minister of Industries, Mines and Energy Modestus Amutse said the National Energy Fund (NEF) will absorb diesel under-recoveries and the remaining two cents per litre levy to limit the increase passed on to consumers. The new pump prices at Walvis Bay will be N$24.48 per litre for petrol 95, N$26.26 per litre for diesel 50 parts per million (ppm) and N$26.36 per litre for diesel 10 ppm. – The Brief

Zimbabwe half-year lithium exports up 230%. Zimbabwe exported lithium products worth US$782 million in the first six months of 2026, up from US$237 million during the same period last year, Finance Minister Mthuli Ncube said on Thursday. The battery mineral accounted for about 12% of Zimbabwe's mineral export revenue in the half year, behind only gold and platinum group metals. Lithium's share of Zimbabwe's export revenue is expected to grow following the April commissioning of the country's first plant producing higher value lithium sulphate as the government pushes Chinese miners, who dominate the sector, to process locally. – Mining Weekly
