Namibia shifts to ‘Earned Incentives’ for investors. Investors will no longer automatically qualify for incentives under the envisaged Namibia Investment Promotion Act. Instead, they will be required to adhere to a strict, targeted, performance-based model. Under the new regime, the government is tightening the vetting process. Investors will be required to provide comprehensive documentation to prove their credibility and financial standing. This includes submitting investor income statements, tax clearance certificates, and proof of sufficient funds to execute the proposed investment. – Namibian Sun

South Africa’s Economy Posts Longest Growth Run in Four Years. South Africa’s economy expanded for a fourth straight quarter, extending the longest growth streak since 2021, when the nation was recovering from the Covid-19 pandemic. Gross domestic product increased 0.5% in the three months through September, compared with revised growth of 0.9% in the prior quarter, Statistics South Africa said in a report released in the capital, Pretoria, on Tuesday. That matched the median estimate of 11 economists in a Bloomberg survey. Growth in the quarter was largely led by the mining and agriculture sectors, which expanded 2.3% and 1.1%, respectively. Every other industry expanded barring electricity, gas and water, which shrank 2.5%.

Exxaro’s 2025 sales volumes in line with guidance. Exxaro Resources says total coal product and sales volumes for the 2025 financial year are expected to be in line with the previous year and within its guidance range of 38.9-million tonnes (Mt) to 42.8Mt. Export sales are also expected to be within the guided range of 6.5Mt to 7.2Mt, finance director Riaan Koppeschaar said in an update on Tuesday. Fairvest lifts outlook as operating conditions show signs of improvement. Fairvest is entering the 2026 financial year with renewed confidence, buoyed by a macroeconomic backdrop that is finally tilting in its favour. The owner of the Soshanguve Southview Centre said its portfolio remains resilient, underpinned by low vacancies, an improving tenant mix, and firm like-for-like income growth across all sectors. This was highlighted in its commentary on the second half of its full-year results to end-September. “The stabilisation of the national electricity grid, easing inflation, and a more favourable interest rate environment have all contributed to a gradual improvement in operating conditions,” the group said. “However, persistent municipal service-delivery challenges and a still-fragile macroeconomic backdrop continue to pose risks. Even so, the portfolio remains resilient and well positioned for further growth.” – Business Day

SADC News

Top Zimbabwe Gold Miner Warns Higher Royalty Would Hit Profits. Caledonia Mining Corp. said a proposal by Zimbabwe’s government to double the royalty on gold producers would curb its profits. “If implemented, it would be expected to result in a lower level of profitability and cash generation relative to current market expectations,” the company said Monday in an emailed statement. Caledonia, one of the country’s top gold producers, said it’s assessing “the implications on its portfolio of assets,” after last week’s government budget proposed hiking the royalty to 10% from 1 January. That would ensure Zimbabwe shares in the record-breaking rally in bullion prices, Finance Minister Mthuli Ncube told lawmakers. The gold company — listed in New York, London and Victoria Falls — warned that the royalty threatens its flagship Blanket Mine, which has benefited from higher prices and output.

Commentary on Previous Auction:

Demand was relatively muted on Tuesday's switch auction, with BoN receiving bids totalling N\$305.4 million on the GC26 source bond and switching N\$287.5 million (94.1%) into the destination bonds, leaving N\$2.01 billion still outstanding. The GC40 and GC50 attracted no bids. The GC37 received four bids totalling N\$2.00 million, however none were allocated by the central bank. The GC30 attracted the bulk of the interest (N\$125.6 million), with the BoN allocating N\$121.6 million.
