International Market Wrap

Global stocks headed for a third straight weekly gain as investors returned to the artificial intelligence trade and cooling US inflation bolstered bets that the Federal Reserve would refrain from raising interest rates. MSCI's Asia Pacific share benchmark rose 0.2% Friday, putting the All Country World Index on course for its longest weekly winning streak since April. The global gauge closed at a record high Thursday, as did the S&P 500 Index, as semiconductor shares extended their rebound from last month's selloff. Futures contracts pointed to gains in Europe, where stocks hit a peak earlier this week. Treasuries held on to this week's gains, bolstered by two days of benign US inflation numbers, with shorter-maturity notes outperforming their longer-dated counterparts.

Local News

Namibia inflation rises to 4.4% as fuel, transport costs surge. Namibia's inflation annual rate accelerated to 4.4% in July 2026 from 3.5% a year earlier, driven largely by a sharp rise in fuel, transport and housing costs, according to the Namibia Statistics Agency (NSA). The NSA's July 2026 Consumer Price Index Bulletin shows that transport emerged as the biggest driver of inflation, contributing 1.4 percentage points to the headline rate. Annual inflation for transport surged to 9.3% from a deflation rate of 1.2% in July 2025, reflecting significantly higher costs for motorists and public transport users. – The Brief

NaCC proposes N$60m merger threshold to cut unnecessary filings. The Namibia Competition Commission (NaCC) is proposing to raise the threshold for mandatory merger notifications to a combined N$60 million, potentially removing about 15% of transactions from compulsory regulatory filings. NaCC Senior Researcher Taimi Amunkete said the proposal would increase the threshold for the business being acquired to N$20 million, while the combined threshold for the merging parties would rise to N$60 million. She said the changes are aimed at cutting unnecessary filings for transactions that pose limited competition risks while allowing the Commission to focus on deals that require greater scrutiny. – The Brief

Namibia sets N$40m local procurement condition for Pepkor-Retailability merger. Pepkor will be required to aim to spend N$40 million buying products from Namibian manufacturers over the next three years as one of the conditions attached to its acquisition of Retailability Namibia businesses. The Namibian Competition Commission (NaCC) imposed the condition after approving Pepkor's acquisition of the Legit, Style and Swagga/Beaver Canoe businesses previously operated by Retailability Namibia. The N$40 million local procurement target will focus on Namibian manufacturers producing clothing, footwear and homeware. NaCC Corporate clothing, Communications Practitioner Dina //Gowases said Pepkor will also be required to establish a N$4.2 million Local Supplier and SME Development Programme over three years. – The Brief

DBN injects over N$819 million into north-east Namibia. The Development Bank of Namibia (DBN) has approved more than N$819 million in development finance for projects in the Omaheke, Kavango East and Kavango West regions as it intensifies efforts to expand access to funding for businesses, women and youth entrepreneurs. The financing forms part of DBN's broader strategy to stimulate regional economic growth and was highlighted during the bank's four-day stakeholder outreach programme. – The Brief

NamRA eyes April 2027 rollout of Namibia Botswana fast-track customs system. Namibia and Botswana are targeting April 2027 for the full implementation of a customs arrangement that will allow trusted businesses to move goods between the two countries with faster clearance and fewer inspections. The Namibia Revenue Agency (NamRA) said the Mutual Recognition Arrangement (MRA) for Authorised Economic Operators (AEOs) will first undergo an eight-month pilot starting on 18 August 2026. The pilot will test whether customs systems and border agencies in both countries can effectively recognise and provide preferential treatment to businesses accredited as compliant traders. – The Brief

Company News

Old Mutual returns to Zimbabwe market after six years. Shares debut on the dollar-denominated Victoria Falls Stock Exchange, gaining 2.9% on their first day. Shares in Old Mutual began trading on Zimbabwe's dollar-denominated stock exchange, six years after they were suspended on the country's main bourse to curb a currency rout. The shares debuted at 76 US cents apiece on the Victoria Falls Stock Exchange on Wednesday and advanced 2.9% to 78.17 cents by the close, valuing Africa's largest insurer by assets at $51 million. In neighbouring South Africa, where the company is based, the stock closed at R12.56. Old Mutual migrated its listing from the Zimbabwe Stock Exchange. In 2020, the Zimbabwean authorities suspended trading in its stock, along with other cross-border companies, including South Africa's PPC and Seed, because their dual listings enabled investors to exploit differences between the two nations' exchange rates as the Zimbabwean dollar collapsed. – Moneyweb

Rainbow Chicken shares rise to four-month high on strong earnings forecast. Doubling for the year ended June 2026, thanks to stronger demand for poultry products and lower commodity prices. Early morning trade saw a boost in Rainbow Chicken's share price, bringing it up to a four-month high. The producer's shares rose as much as 13% around 9am to R6.85, before falling to R6.40 per share around 10am. The sharp upward move on Thursday was driven by the release of a positive Sens trading statement for the year ended June 2026. The company said it expects its earnings per share (EPS) for the current period to be between 141 cents and 154 cents, an increase of more than 120% from the reported EPS of 64.04 cents for the comparative period. – Moneyweb

Standard Bank posts record profit despite US-Iran war fallout. Grows first-half headline earnings by 10%. Standard Bank Group said first-half profit rose to a record as Africa's largest bank by assets navigated the inflationary and monetary policy effects of the war in the Middle East, which weighed on clients' confidence. Headline earnings grew 10% to R26.1 billion in the six months through June, buoyed by fee growth and higher trading revenue that offset a slowdown in interest income, the Johannesburg-based lender said in a statement on Thursday. It declared an interim dividend of R9.02 per share, the highest on record. – Moneyweb

Truworths warns on lower earnings as consumer strain deepens. Strained consumers force tighter credit as cash and account sales decline. Fashion retailer Truworths says it expects to report a decline in earnings and group sales as its operational markets at home, South Africa, and in the UK remain under pressure due to further strain on consumers and subdued economic conditions in both markets during its 2026 financial year. The retailer said on Thursday HEPS for the year ending in June will fall 2%-4%, ranging at 722c-737c, compared with the 752.1c recorded in the previous year. Group retail sales fell 0.9% to R21.8bn, affected by a stronger rand- pound exchange rate in the second half. – Business Day

SA Economic News

Mining shrinks 2.7% in the second quarter, raising economic red flags. Key minerals drive sector deeper into decline as PGMs, coal and iron ore output slide. South Africa's mining sector contracted further in June after key minerals coal, iron ore and platinum group metals (PGMs) registered a sharp drop in production, dragging the sector into 4.4% negative territory year on year. The June mining print follows a 5.1% slip in May, with the sector ending the second quarter of the year on a weaker footing and likely to make a dent in GDP growth. Data from Stats SA shows that mining activity shrank by 2.7% in the second quarter of 2026 from the first quarter. – Business Day
