International Market Wrap

Wall Street's stock rally carried into Asia as a further decline in oil prices bolstered optimism that inflation will be contained. The yen weakened after the Bank of Japan raised interest rates in a split vote. MSCI's Asian equities gauge rose 0.8% after the S&P 500 Index and Nasdaq 100 Index posted their best day since early August. Samsung Electronics Co., SK Hynix Inc. and other regional chipmakers rallied following a bullish outlook from Nvidia Corp. US equity-index futures pointed to further gains on Wall Street, while European shares were set for a slightly weaker open. Meanwhile, the yen fell to about 157.10 per dollar after the BOJ raised its policy rate by a quarter point to 1.25% Friday.

Local News

Bannerman issued 31m shares to raise N$1.43 billion. Australian-listed uranium developer Bannerman Energy has issued 31 million new shares to institutional and sophisticated investors, raising A$124 million (N$1.43 billion) as it advances the development of its Etango uranium project in Namibia. The company said on Wednesday that the fully paid ordinary shares were issued at A$4.00 each, following its announcements on 9 and 10 September 2026 regarding the capital raising. Bannerman is developing Etango in Namibia's Erongo Region, about 30 kilometres south-east of Swakopmund. The project is one of Namibia's major uranium development projects and has a mineral resource of 207 million pounds of uranium. Bannerman said the project is located within an established uranium mining district and benefits from existing infrastructure and logistics. – Windhoek Observer

Choppies faces Namibia profit pressure. Namibia's government-subsidised commodities contributed to weaker profitability at Choppies Enterprises during the year ended 30 June 2026, with the Botswana-based retailer saying its operations were affected by weaker macroeconomic conditions across its markets. Choppies said government-subsidised commodities in Namibia were among the factors that impacted group profitability during 2026 Financial Year (FY2026), alongside reduced consumer liquidity in Botswana, the depreciation of the Botswana pula, food-price deflation in Zambia, higher oil and fuel prices, increased transportation costs and stronger promotional activity in constrained consumer markets. – Windhoek Observer

Dangote to launch Namibia-DRC fuel pipeline network in October. Dangote Industries plans to launch a 2,620 to 2,650-kilometre fuel pipeline network in October, starting in Namibia and extending through Botswana, South Africa, Zimbabwe and Zambia to the Democratic Republic of Congo (DRC). Dangote Group Chairman Aliko Dangote said the planned network would start in Namibia and run through Botswana into South Africa, with another line extending through Zimbabwe and Zambia to the DRC. – The Brief

Capricorn Group profit down 6.4% to N$1.87bn. Capricorn Group's profit after tax declined by 6.4% to N$1.87 billion for the year ended 30 June 2026, as weaker economic conditions in Botswana drove up credit impairments and weighed on loan demand. The financial services group said credit impairment charges increased by 45% to N$457 million from N$315 million in 2025, becoming the main factor affecting earnings during the period. The increase was largely concentrated in Botswana, where weaker economic conditions placed pressure on customers, as well as in a limited number of significant client exposures experiencing financial stress. - The Brief

Company News

Bytes shares soar as it upgrades full-year guidance after strong first half. Shares in Bytes Technology Group jumped more than 8% on Thursday after it upgraded its full-year guidance following a strong first half in which trading was ahead of expectations. The group, which is one of the UK and Ireland's leading software, security, AI and cloud services specialists, said in a trading update on Thursday that customer demand for software, cloud and security solutions has remained strong, and AI is becoming a more meaningful driver of growth in its core business areas.- Business Day

Orion Minerals cracks Bank nod for Glencore-linked Prieska funding. Orion Minerals has received Reserve Bank approval for an agreement with Glencore to provide funding for the Prieska copper-zinc project in the Northern Cape. The approval clears a condition of the February funding agreement with Glencore, which involves funding from outside South Africa linked to future sales of copper and zinc concentrate from Prieska. It allows work on the project to move into procurement and contracting, with Orion gaining access to $250m (R4.06bn) for construction and start-up and up to $50m available early for initial works, subject to conditions. - Business Day

Momentum hits R7bn earnings target a year early. Momentum Group continues to deliver strong earnings results, reporting normalised headline earnings (NHE) of more than R7 billion for the financial year ended 30 June 2026. This is up 13% compared to the prior year. NHE exceeded the R7 billion ambition one year earlier than the original plan set out to transform the financial services provider into an advice-led, tech-enabled business. It said the results were underpinned by stronger operational performance across most business units, five of which have now achieved NHE of more than R1 billion for the year. – Moneyweb

Mondi and Sappi set for relief as Tau orders tariff review. Minister of trade, industry & competition Parks Tau has ordered a review to consider trade policy instruments available to the government to shield paper products companies from extinction as cheap imports flood the market. Tau's move comes after industry majors Sappi and Mondi raised red flags about the imports making their way in South Africa, with the toilet paper market also coming under strain. - Business Day

SA Economic News

South Africa orders review of paper industry as imports rise. South African Trade Industry and Competition Minister Parks Tau asked the International Trade Administration Commission to review the paper and paper- products industry and recommend an appropriate trade-policy instruments as imports into the country rise.

Key South African legislation stuck in parliamentary limbo. The process of passing legislation in South Africa has slowed to a crawl, with a number of key bills awaiting approval by parliament years after they were first proposed. Some 24 laws have been presented to the National Assembly since it reconvened in February and only three — all related to government spending — have been passed, along with eight others that were introduced in previous years, the legislature's records show. A presentation made by parliament's legal advisers to a lawmakers' panel last month showed it takes an average of 34 months to pass laws that affect the national and provincial administrations, up from six months in 2004.

SADC News

IMF reaches staff-level agreement with Zimbabwe on second review. The International Monetary Fund has approved the second review of Zimbabwe's 10-month staff-monitored program with the southern African nation, subject to IMF management approval. In an statement after meeting with Zimbabwean authorities, the fund said that all quantitative and indicative targets were met but the country missed on protected and social priority spending goals. "Completion of the review would mark a further step in consolidating macroeconomic stability and building a track record toward arrears clearance, debt restructuring, and re-engagement with the international community," said Wojciech Maliszewski, who led an IMF team visit to the country between Sept. 7 to Sept. 17.

Commentary on Previous Auction:

This morning's government bond auction saw the BoN receive N$1.05bn worth of bids for the N$355.0m of bonds on offer. The GCs logged a bid-offer of 2.82x, with the GC37 recording the strongest demand relative to the amount on offer, with a bid-to-offer ratio of 10.56x. The GC29 and GC34 again saw solid demand, together accounting for 43.3% of all bids received. The GC34, GC37, GC40, GC45 and GC50 were all over-allocated, while the GC43, GC48 and GC53 were under-allocated, each of which was undersubscribed on the day. The GIs recorded a bid-to-offer of 4.18x. The GI31 recorded the strongest demand relative to the amount on offer, with a bid-to-offer ratio of 4.80x, followed by the GI36 (4.53x). All five inflation-linked bonds were fully allocated. The BoN ended up raising the full N$355.0m.
