**JSE Market Wrap**  
 The FTSE/JSE Africa All Share Index fell 0.7% to 78,014.35 as 62 stocks gained, 65 fell, and 4 were unchanged. PPC rose 11.4%, Raubex Group gained 8.0% and SA Corporate Real Estate climbed 6.3%. Bytes Technology Group fell 17.4%, Liberty Two Degrees dropped 6.0% and PSG Konsult declined 5.8%.

**International Market Wrap**  
 Stocks fell on Monday as concern about the global economy and the path of rates sapped the strength of a blistering second-quarter rally. A decline of 1% in Europe's main equity gauge swept up almost every industry. Wall Street's rally has now erased more than a year of Fed-induced losses, with stocks, volatility and the dollar shaking off the impact of 10 rate hikes. The S&P 500 index just capped a fifth straight week of gains and is now higher than it was the day the Federal Reserve kicked off its campaign. Shares fell from Hong Kong and Shanghai to Tokyo and Seoul on Tuesday. The moves pointed to further anxiety about Chinese growth. Elsewhere in markets, gold was little changed while oil fell as China's plans to support its economy were seen as insufficient to reignite demand.

## Local News

**Government needs help to buy 24% green hydrogen stake.** After much uncertainty, the Namibian government has taken up an offer of a 24%-stake in Hyphen Hydrogen Energy, but says it needs investor financing. This would be realised through a proposed 'SDG Namibia One Fund' it says. Green hydrogen commissioner James Mynupe yesterday announced this as he was unpacking Namibia's green hydrogen ambitions to Danish and Dutch prime ministers Mette Frederiksen and Mark Rutte, respectively. Myupe revealed that the SDG Namibia One Fund would secure 40 million euros through Dutch company Invest International. The fund would be used to acquire shares in Hyphen's green hydrogen project and various other projects. – The Namibian

**Danes, Dutch in green hydrogen 'hurry'.** Denmark's prime minister Mette Frederiksen, who was in the country with her Dutch counterpart Mark Rutte yesterday, says the world is in a hurry for green hydrogen and Namibia must thus seize the opportunity to deliver on this front. In an unprecedented move, Denmark and the Netherlands, driven by Europe's energy needs, have united efforts to seize opportunities within Namibia's highly sought-after green hydrogen industry, aiming to address their own energy challenges. With a commitment to ensuring project success, Netherlands have pledged various incentives – including signing a letter of intent on a visa-waiver agreement with Namibia at State House yesterday, which would allow Namibians with diplomatic passports to travel without visas between the two nations. – Namibian Sun

**Tower Resources' Namibian blocks indicate productive petroleum system.** Tower Resources has announced that the results from a recently completed basin and thermal maturity study conducted over its blocks in Namibia's Walvis Basin show evidence of a functioning petroleum system. The company is hopeful that this system could potentially host billions of barrels of oil. Tower Resources, a listed oil and gas company, operates blocks 1910A, 1911, and 1912B, collectively known as Petroleum Exploration Licence (PEL) 96. These blocks are located off the Skeleton Coast, surrounded by acreage controlled by ExxonMobil in the Walvis and Namibe basins. – The Brief

**Over 15,000 jobs to be created.** There is a glimmer of hope for the unemployed, as approximately 15,000 jobs in the public sector are anticipated to become available this year. These employment opportunities will arise from the security cluster, which encompasses the National Defence Force (NDF), National Correctional Services (NCS) and the Namibian Police. – New Era

**More tourists flock to Namibia every year.** Tourist arrivals to Namibia increased by 4.6% from 2021 to a total of 243,466 during the 2022 tourism season. According to tourism minister Pohamba Shifeta, although the past two years have been gloomy for many in the tourism and travel sectors, the future looks promising. He said tourist arrival numbers have seen a consistent rise over the past few years - they rose by 37.3% in 2021, from 169,565 visitors in 2020 to 232,756 arrivals recorded in 2021. "However, I would like to add that these visitor numbers remain very low for the country as it only represents about 15% of the pre-Covid-19 numbers at about 1.59 million tourist arrivals," the minister said. – Namibian Sun

## SA Economic News

**South Africa's JSE reduces new listing free-float threshold to 10%.** South Africa's Financial Sector Conduct Authority has published the approval of proposed amendments to the JSE listings requirements in the Government Gazette, with the effective date as 17 July. The amendments include the reduction of the 20% free float threshold to 10% in line with developments where the UK and EU have reconsidered the level of free float required on listing.

## Company News

**Novus** suffers loss as high input costs hit print business. Print and packaging group Novus suffered a loss in the year to end-March as higher input costs eroded margins in the core print business, dwarfing the relatively good performance in the packaging unit. Higher paper prices and an energy supply crunch inflated its cost base, coming at a time when demand for physical newspapers and magazines is in a structural decline as customers pivot to paperless alternatives. – Business Day

**Omnia** hikes dividend by 36%, still battling SARS in tax dispute. Fertiliser and explosives group Omnia Holdings has hiked its dividend by more than a third after strong growth from most of its divisions in the year to end-March. The 70-year-old JSE-listed company benefited from strong demand and higher commodity prices, although it said that operating conditions and prices came under pressure in the second half of the year. In reaction, it adjusted production rates and improve efficiencies. The company reported a 24% increase in revenue to R26.5 billion, while operating profit rose nearly a fifth to R1.899 billion and headline earnings per share increased 10% to 742c. It declared an ordinary dividend of 375c, up 36% on the 275c declared in the previous financial year. – News 24

**Stor-Age** reports 3.6% rise in distributable income. South Africa's largest self-storage property fund Stor-Age on Monday said its full-year distributable income rose by 3.6%. Its distributable income per share – the primary profit measure for real estate investment trusts (Reits) – rose to 118.14 cents in the year to 31 March, up from 114.07 cents the previous year. The company holds a dominant market position for self-storage units in South Africa and the UK, but with few barriers to entry analysts expect increasing competition in the sector. Stor-Age, however, remains upbeat on its prospects. – Reuters/Moneyweb

**Transaction Capital** gets funding for car financing business. Transaction Capital, owner of WeBuyCars and SA Taxi, has signed a deal with an unnamed bank to provide funding for its vehicle-financing business, Gomo, to allow it to originate more loans for older cars and drive sales. As the future of SA Taxi hangs in the balance, with only a few more months of funding left and rising bad debts, Transaction Capital needs to increase income in its remaining businesses. – Business Day

## SADC News

**Angola** is scheduled to reduce crude exports from 1.24m b/d to 1.045m b/d in August, according to a preliminary program.

### Government Bond Auctions

Next Auction Date: 21-June-23

#### Commentary on Previous Auction:

The 07 June GC23 switch auction saw significantly higher market participation than last month's did, despite the higher switch yield offered this time round. The BoN received N\$710.2m worth of bids on the source bond and allocated N\$487.2m, leaving N\$2.13bn outstanding. The bonds that saw allocations recorded an average spread increase of 18bps. The final GC23 switch auction is scheduled for 23 August.
