NamRA collects N\$15.6 billion in two months. The Namibia Revenue Agency (NamRA) collected N\$15.6 billion in April and May 2026, equivalent to 16.5% of its annual revenue target of N\$82 billion for the 2026/27 financial year. Speaking in an interview with The Brief, NamRA Commissioner Sam Shivute said the agency remains on track to achieve its revenue collection target. "I am very pleased to report that the Namibia Revenue Agency is on course to reach its revenue target. This year our target is N\$82 billion, and I am happy to report that during the first two months, April and May, we have already collected about 16.5% of that target," Shivute said. Shivute attributed the strong performance to increased receipts from the Southern African Customs Union (SACU), improved contributions from the mining sector and strong tax payments from the financial services industry, particularly commercial banks. – The Brief

DRC's N\$40m fishing deal lands Standard Bank in court. A DEMOCRATIC Republic of Congo (DRC) state fund has taken Standard Bank Namibia to court over a N\$40-million transaction that allowed a fishing company Swapo owns to misappropriate N\$13 million from a protected bank account. High Court documents show the DRC's state social fund, formally known as the Fond Social de la République Démocratique du Congo (FSRDC), filed papers on 26 May. FSRDC is suing Standard Bank Namibia, Daron Namibia, owned by businessman Luther Mostert, and Hodago Fishing, of which the shareholders include Swapo with 45%. The fund claims Standard Bank allowed the account mandate to be changed, removed its representative as a signatory, and permitted funds to be transferred without its consent. – The Namibian

SA Economic News

South African consumer confidence sours on fuel price surge. South African consumer confidence darkened in the second quarter as households confronted a sharp rise in fuel prices caused by fallout from the Iran war. First National Bank's consumer-confidence index compiled by the Bureau for Economic Research slumped to -19 in the three months through June from -7 in the previous quarter. That was the lowest reading since the first quarter of 2025, when confusion over a proposed increase in value added taxes delayed adoption of the nation's budget. The rise in fuel prices as the conflict constrained energy supplies added an estimated 45 billion rand in costs to the South African economy, FNB said.

A total of 150 bids were received, of which 92 were successful. The GC29 attracted the strongest demand, receiving N\$500.7m in bids. The GC34 followed, with N\$348.3m in bids. Together, the GC29 and GC34 accounted for the bulk of the demand, reflecting continued investor preference for the shorter-to-mid end of the curve. Following the auction, the amount outstanding on the GC27 declined to N\$5.06bn.
