Namibia secures one-year seat at FATF global policy table. Namibia has been invited to participate directly in Financial Action Task Force (FATF) Plenary meetings as a guest jurisdiction for one year, giving the country a temporary seat in discussions that shape global standards for combating money laundering, terrorist financing and proliferation financing. The Financial Intelligence Centre (FIC) said the invitation was extended by the FATF President under the organisation's Guest Initiative, which seeks to increase the participation and perspectives of countries that are not FATF members. – The Brief

Namibia targets pharmaceutical manufacturing to cut reliance on imports. Namibia is pushing for the expansion of pharmaceutical and medical manufacturing in Southern Africa as the region seeks to reduce its dependence on imported medicines, vaccines, diagnostics and medical devices. National Planning Commission (NPC) Director Kaire Mbeunde said the COVID-19 pandemic exposed the risks faced by countries with limited domestic manufacturing capacity when international supply chains are disrupted. Speaking on behalf of President Netumbo Nandi-Ndaitwah at the fifth Southern Africa Regional Ministerial Steering Committee meeting in Windhoek, Mbeunde said building regional manufacturing capacity should form part of efforts to create a more self-reliant health system. – The Brief

Galp weighs further N$13bn Namibia investment as Mopane drilling accelerates. Galp Energia is considering a further N$13 billion investment in Namibia over the coming years as it advances exploration and appraisal of the Mopane discovery with TotalEnergies ahead of a potential final investment decision (FID) targeted for 2028. The planned expenditure would come on top of about N$12 billion that Galp says it has invested in Namibia over the past 20 years, taking its potential cumulative investment to around N$25 billion before development and first oil. Galp Upstream Senior Vice President Adriano Bastos said the next investment programme would fund further work needed to reduce technical and commercial uncertainty around the discoveries. – Mining and Energy

PSG to delist from Mauritius stock exchange. PSG Financial Services shareholders have approved the proposed voluntary delisting of the company's ordinary shares from the Stock Exchange of Mauritius (SEM). The financial services company says retaining a dual listing on the bourse in Mauritius along with no trading activity creates limited benefit to the company or its shareholders, yet "imposes ongoing regulatory, administrative and compliance requirements and costs on the company".
