International Market Wrap

A selloff in the riskier corners of the market deepened as the UK's plan to lift its economy fuelled concerns about heightened inflation that could lead to higher rates, adding to fears of a global recession. It was a sea of red across equity trading desks, with the S&P 500 briefly breaching its June closing trough. Goldman Sachs Group slashed its target for US stocks, warning that a dramatic upward shift in the outlook for rates will weigh on valuations. Liz Truss's new UK government delivered the most sweeping tax cuts since 1972 at a time when the Bank of England is struggling to rein in inflation, which is running at almost five times its target. Asian shares slid amid unrelenting pressure on risk-sensitive assets as fears of faster inflation and global recession continued to rise.

160,000-tonne cereal imports needed. Namibia still needs to import more than 160,000 tonnes of cereal to be able cover its domestic requirements for the 2022/2023 marketing and consumption period, which runs from 1 May 2022 to 30 April 2023. This is according to a crop prospects and food security situation report for July, which was just released by the agriculture ministry. The report estimated that 168,700 metric tonnes of cereals are locally available for the 2022/2023 marketing and consumption period in Namibia. This comprises 28,100 tonnes of wheat, 89,100 tonnes of white maize and 51,500 tonnes of pearl millet and sorghum. However, this is only about 45% of the domestic cereal requirement of 373,400 tonnes, and therefore a total of 204,600 tonnes is needed to cover the shortfall. – Namibian Sun

TransNamib spokesperson Abigail Raubenheimer says the company is continuing with its rightsizing exercise. TransNamib started a process of voluntary exit at the end of 2021. – The Namibian
